Mr. Rippi Sawhney  
Westenmore Metals  
51 Bank Street  
Stanford, CT 06901

Dear Mr. Sawhney:

In our conversation several weeks ago, we discussed the possibility of your finding a party interested in utilizing the slag piles at the NL Industries Superfund site, located in Pedricktown, New Jersey. Attached is the analysis of the slag piles which you requested. Our On-Scene Coordinator (OSC) estimates that there are approximately 5000 short tons of iron oxide, and 200 short tons of lead oxide.

If you have any other questions or need any further information, please call me at (212) 264-6418.

Thank you for your interest in this matter.

Sincerely yours,

Michael H. Gilbert  
Remedial Project Manager  
Southern New Jersey Compliance Section
